

Year 4 Autumn 1 The Digestive system

Maths

This half term we will be working on:

- Place value – To understand the value of each digit in a number. To be able to round numbers to the nearest 10, 100 and 1000. Use our knowledge of place value to help with ordering numbers.
- Addition and subtraction – Further developing understanding of formal method of addition and subtraction.

English

Using our topic theme on the digestive system we will be working on creating pieces of writing in:

- **Fact files** – Learning techniques to present information in an efficient and practical way to help the reader.
- **Persuasive Writing**
- **Fantasy Narrative** – Using all the information that children have learnt they will write a detailed and descriptive story of a food traveling through the digestive system.

R.E

Our first topic we will be working on this year will be about family, to understand the importance in the Catholic church and how to continue to live our lives through Jesus

ICT

For our ICT work this half term children will be developing their understanding of the Internet. Children will learn to use the internet effectively to find the information they need.

Science

As scientists this half term we will be researching the human body looking into the digestive system as well as our teeth. We will also be learning about the animal kingdom and how we can create food chains to understand the diets of animals that live in the wild.

P.E

Our P.E lessons will be on a Wednesday afternoon.

This half term we will also begin swimming, children will be going swimming on a Thursday morning.
